

Alignment Vibratory Conveyor

Key's [Smart Shaker® vibratory conveyors](#) align and prepare your product for that next value-added processing step, whether you're sorting or whether you're adding value through batter/breading, frying, drying, freezing, or packaging. Available in [Iso-Flo® with mechanical drives](#) or in [Impulse™ with electromagnetic drives](#), these special alignment systems—standard or custom design—often have a payback period of less than a year.

Specific Features

- Custom designed solutions for your specific needs
- Alignment sections and options can be designed for easy removal for quick changeover
- Vector-Lock™ screen clamp mechanism provides maximum screen holding capability
- Numerous material selections for correct product handling characteristics
- System designs meet sanitation and safety requirements for meat, poultry and dairy

Call Key to find out about how your products may benefit from this technology or another system.
